

Inspirational by Design™ System Requirements

This document describes the network and hardware configurations recommended or needed to work with Inspirational by Design™ platform, based on the solution and the device being used.

Network Configuration

Bandwidth

A suitable Internet connection is required. This connection must have appropriate bandwidth taking into account:

- The number of concurrent users
- Current bandwidth utilization
- Other network applications (e.g. VOIP)
- Varying usage habit

Access

Firewalls, content filters, and other network infrastructure must allow connections.

Full Code Supported Devices

Full Code is written for the web so that it runs great in a browser. We package it inside Apple & Google apps so that it runs great on mobile devices. The experience is identical across platforms, and it even works great offline.

Web Browsers

Google Chrome (latest version) • Apple Safari (latest version) • Microsoft Edge (latest version)

Apple Devices

All devices running iOS 9 or later are supported. iPhone's 5S or newer • iPad's 2 or newer • iPod Touch 5th generation or newer

Android Devices

Full Code runs on most (but not all) Android phones with version 7.0 (Nougat) or later.

Due to incompatibilities with the 3D web technologies that Full Code is built upon we do not support:
